

Davis Blasini

Extension Associate

Produce Safety Alliance (PSA)

Davis is a plant physiologist interested in extension work in Plant Science, Microbiology, Bilingual Education, and Water Quality and Conservation. Davis worked for the University of Arizona Maricopa Agricultural Center as a research technician for four years. This experience allowed him to become involved in science education projects related to food safety for Hispanic communities in the state of Arizona. As a result, Davis has translated into Spanish several technical help sheets, instructional field guides, technical manuals, educational YouTube videos and an agricultural water quality app (*AgWater App*) while co-leading and teaching NASDA's On-Farm Readiness Review (OFRR) and the Alliance grower training course in Spanish. Davis received his B.S. in Biology from Northeastern Illinois University and his M.S. in Biology from Arizona State University.
